Have some FUN!

Help us to run a summer that young people will remember for the rest of their lives...

This summer we are running a National Citizen Service programme for 16 year olds in Redbridge which will aid their personal and social development, through empowering and encouraging them to develop practical skills and supporting their move into the world of employment.

We are looking for highly energetic and motivated individuals who are able to support groups of young people confidently, to achieve their potential and who can facilitate teamwork amongst young people of different faith and cultural backgrounds.

This is a voluntary position with reasonable expenses paid and food and accommodation provided during residential weeks. Applicants should be available to work for at least one week during 13th-31st August 2012. Flexibility with time is beneficial.

To learn more about these opportunities call 020 8989 5743 or email ncs@jlgb.org
